

Adult Services Program at Crossroads Continuum Celebrates One-Year Anniversary Celebration Kicks Off Autism Awareness & Acceptance Month

Marlborough, MA — April 1, 2024 — Crossroads Continuum is proud to announce the one-year anniversary celebration of its adult services program, The Commons, marking the beginning of Autism Awareness and Acceptance Month. The Commons, inspired by the concept of a Town Commons, brings together adults with Autism to foster community and celebrate individuality.

The Commons is currently the fastest growing program at Crossroads Continuum and was designed specifically to enhance independence and enrich the lives of adults with Autism through a diverse range of off-site activities. As a Community Based Day Service program approved by the Massachusetts Department of Developmental Services, The Commons adopts a person-centered approach to skill development, empowering individuals with Autism to thrive within their community.

The celebration event will take place at The Commons facility located at 290 Donald J. Lynch Blvd, Marlborough, MA, on Wednesday, April 3, 2024, from 3:30 to 4:30 pm. Attendees will include clients, families, program leaders, members of the Board, and special guests. Executive leaders from Crossroads Continuum, including President & CEO Lia Spiliotes.

"This anniversary celebration is a testament to the dedication and progress of The Commons program over the past year," remarked Lia Spiliotes, President & CEO of Crossroads Continuum. "We are thrilled to showcase the accomplishments of our clients and the supportive community that has rallied around this important initiative."

###

Crossroads Continuum, headquartered in Hudson, MA, is a non-profit whose mission is to enhance the quality of life for individuals with Autism and related disorders from birth through adulthood. We serve over 100 families from more than 60 communities across Mass.

Using the science of Applied Behavior Analysis (ABA), Crossroads Continuum provides individualized services to those with Autism. Our clinical expertise and compassionate care allow participants to engage meaningfully in real life and connect with others. We envision a world where those with Autism lead lives of hope and receive the education and clinical support needed to set aspirational goals and engage meaningfully with their family and community at all ages and stages of life.
